Scenario Instructions

For this task, you will be given a scenario and asked to share how you would respond in such a given situation. Please be as honest and open with your response as you can.

Aptitude Scenario_Other

Your close friend, Amelia, recently did badly on an important test. She struggles with understanding the study materials and has a tough time keeping up with the lecturer during class. Personally, you believe that Amelia has low aptitude for the topic.

Knowing that a similar test is coming up, Amelia approached you for advice on how to tackle the test.

In the box below, please describe how you would advise your friend on the above issue.

If Amelia followed your advice, how likely do you think she would improve on the upcoming test?

Effort Scenario_Other

Your close friend, Amelia, recently did badly for an important test. She barely revises her study materials and is often inattentive during class. Personally, you believe that Amelia is putting in little effort into the subject.

Knowing that a similar test is coming up, Amelia approached you for advice on how to tackle the test.

In the box below, please describe how you would advise your friend on the above issue.

If Amelia followed your advice, how likely do you think she would improve on the upcoming test?

Strategy Scenario_Other

Your close friend, Amelia, recently did badly for an important test. She mindlessly copies what the lecturer says in class and keeps trying to memorize the materials by heart. Personally, you believe that Amelia is not using the right study strategies for the subject.

Knowing that a similar test is coming up, Amelia approached you for advice on how to tackle the test.

In the box below, please describe how you would advise your friend on the above issue.

If Amelia followed your advice, how likely do you think she would improve on the upcoming test?

Luck Scenario_Other

Your close friend, Amelia, recently did badly for an important test. She had a stomachache right before the test started and she had to go to the restroom multiple times during the test. Personally, you believe that Amelia was really unlucky for the test.

Knowing that a similar test is coming up, Amelia approached you for advice on how to tackle the test.

In the box below, please describe how you would advise your friend on the above issue.

If Amelia followed your advice, how likely do you think she would improve on the upcoming test?

Attribution Scale Instructions

On the next few pages, you will be presented with six causes of success and failure in achievement-related situations: aptitude, effort, mood, task difficulty, luck, and strategy. You will be asked to judge three characteristics of these causes:

- 1) whether you think they reside within or outside you;**
- 2) whether you think that the causes are stable (constant) over time or whether they change over time; and**
- 3) whether anyone (including you and other people) has control over the causes and can intentionally create change.**

Aptitude Dimensions

Rate the following cause of achievement/failure along three characteristics:

Aptitude

To what extent does aptitude reside inside or outside you?
